

Thank you for joining us!

- We will start at 3 p.m. ET.
 - You will hear silence until the session begins.
 - Handout: Available at PEPPER.CBRPEPPER.org.
 - A Q&A document will be posted at the above location within two weeks.
- Please listen in by either:
 - Using your computer speakers (recommended): You automatically join the audio broadcast when entering the meeting (remember to increase your speaker volume; make sure you are not muted).
 - Dialing 1-415-655-0001 (passcode 2317 349 2225) (limited to 500 callers).

Q4FY22 Hospice **PEPPER Review**

Spring 2023

Annie Barnaby

About Today's Presentation

Phone lines will be muted the entire duration of the training.

Submit questions pertinent to the webinar using the Q&A panel.

Questions will be answered verbally, as time allows, at the end of the session.

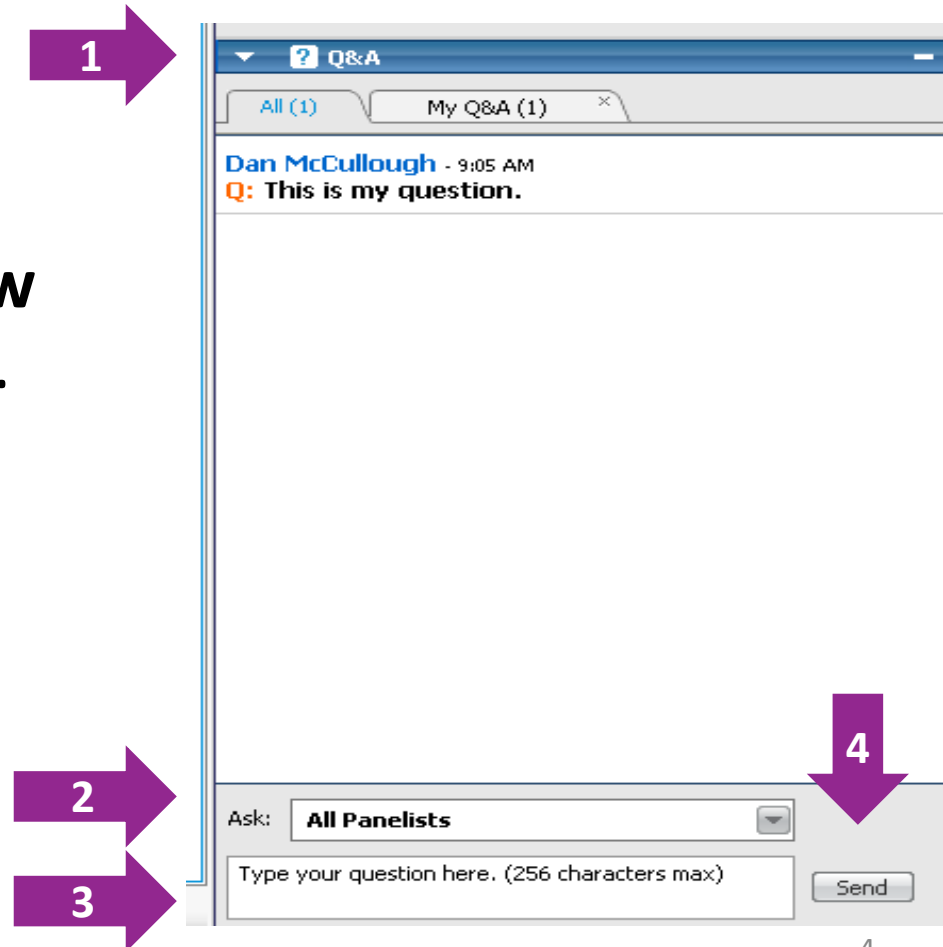

A Q&A document will be developed and posted at PEPPER.CBRPEPPER.org.

To Ask a Question in Split Screen

Ask your question in Q&A as soon as you think of it.

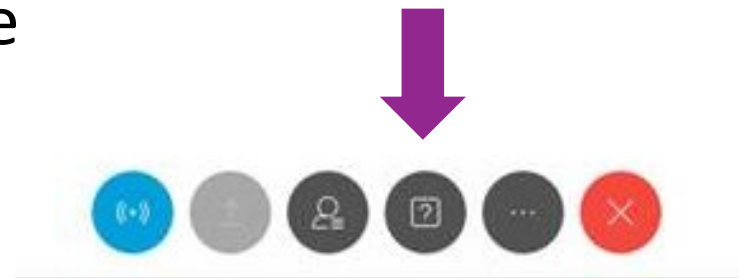

1. Go to the **“Q&A”** window located on the right side.
2. In the **“Ask”** box, select **“All Panelists.”**
3. Type in your question.
4. Click the **“Send”** button.

The screenshot shows a Q&A interface with a header bar containing a question mark icon and the text "Q&A". Below the header, there are two tabs: "All (1)" and "My Q&A (1)". The main content area displays a question from "Dan McCullough" at "9:05 AM" with the text "Q: This is my question." Below the question, there is an "Ask:" dropdown menu set to "All Panelists", a text input field with the placeholder "Type your question here. (256 characters max)", and a "Send" button. Four purple arrows with numbers 1 through 4 point to the Q&A window, the "All Panelists" dropdown, the text input field, and the "Send" button, respectively.

To Ask a Question in Full Screen

1. Click on the “Q&A” button to bring up the Q&A window.
2. Type in your question (as in the previous slide).
3. Click the “**Send**” button.
4. Click “-” to close the window and to see the full screen again.

Agenda

- Review the Q4FY22 *Hospice Program for Evaluating Payment Patterns Electronic Report (PEPPER)*.
- Examine new target areas for the Q4FY22 release:
 - *Average Number of Medicare Part B Claims for Beneficiaries Residing at Home*
 - *Average Number of Medicare Part B Claims for Beneficiaries Residing in an Assisted Living Facility, Nursing Facility, or Skilled Nursing Facility*
- Review additional resources.

PEPPER Details

To learn more about PEPPER:

Review percents and percentiles.

Learn how hospice episodes of care are identified, and review a demonstration PEPPER.

Access the recorded training sessions available in the Hospice “Training and Resources” section of the PEPPER website at PEPPER.CBRPEPPER.org.

What is PEPPER?

PEPPER summarizes Medicare claims data statistics for one provider in “target areas” that may be at risk for improper Medicare payments.

PEPPER compares the provider’s Medicare claims data statistics with aggregate Medicare data for the nation, jurisdiction, and the state.

PEPPER cannot identify improper Medicare payments!

History of PEPPER

2003

TMF Health Quality Institute developed PEPPERS for short-term acute care hospitals and, later, long-term acute care hospitals; they were provided by Quality Improvement Organizations (QIOs) through 2008.

2010

TMF began distributing PEPPERS to all providers in the nation, and TMF developed PEPPERS for other provider types: critical access hospitals, inpatient psychiatric facilities, and inpatient rehabilitation facilities (2011); hospices and partial hospitalization programs (2012); skilled nursing facilities (2013); and home health agencies (2015).

2018

The Centers for Medicare & Medicaid Services (CMS) combined the Comparative Billing Report (CBR) and the PEPPER programs into one contract; RELI Group and its partners, TMF and CGS, began producing CBRs and PEPPERS.

Why are providers receiving a PEPPER?

CMS is tasked with protecting the Medicare Trust Fund from fraud, waste, and abuse.

The provision of PEPPER supports CMS' program integrity activities.

PEPPER is an educational tool that is intended to help providers assess their risk for improper Medicare payments.

Q4FY22 *Hospice PEPPER* Release

Summarizes statistics for three federal fiscal years:

- 2020
- 2021
- 2022

Statistics for all time periods are refreshed with each release.

The oldest fiscal year rolls off as the new one is added.

Hospice Improper Payment Risks

Hospices are reimbursed through the Medicare Hospice Benefit (MHB).

Hospices can be at risk for inappropriate beneficiary enrollment in the MHB.

Target areas were identified based on a review of the MHB, a review of oversight agency reports, an analysis of claims data, and in coordination with CMS subject matter experts.

PEPPER Target Areas

- Areas identified as potentially at risk for improper Medicare payments (e.g., coding or billing errors, unnecessary services)
- Reported as either of the following:
 - Ratio (numerator/denominator different units)
 - Percent (numerator/denominator same units)
- A target area is constructed as a ratio:
 - Numerator = episodes/claims/days identified as potentially problematic
 - Denominator = larger reference group

Hospice PEPPER Target Areas

- *Live Discharges No Longer Terminally Ill*
- *Live Discharges – Revocations*
- *Live Discharges LOS 61 – 179 Days*
- *Long Length of Stay*
- *Continuous Home Care Provided in an Assisted Living Facility*
- *Routine Home Care in Assisted Living Facility*
- *Routine Home Care in Nursing Facility*
- *Routine Home Care in Skilled Nursing Facility*

Hospice PEPPER Target Areas, Cont'd

- *Claims with Single Diagnosis Coded*
- *No General Inpatient Care or Continuous Home Care*
- *Long General Inpatient Stays*
- *Average Number of Medicare Part D Claims for Beneficiaries Residing at Home*
- *Average Number of Medicare Part D Claims for Beneficiaries Residing in an Assisted Living Facility*
- *Average Number of Medicare Part D Claims for Beneficiaries Residing in a Nursing Facility*

New Hospice PEPPER Target Areas

- *Average Number of Medicare Part B Claims for Beneficiaries Residing at Home*
 - New as of Q4FY22 release
- *Average Number of Medicare Part B Claims for Beneficiaries Residing in an Assisted Living Facility, Nursing Facility, or Skilled Nursing Facility*
 - New as of Q4FY22 release

Example *Hospice PEPPER* Target Areas

Target Area	Target Area Definition
<p><i>Live Discharges No Longer Terminally Ill</i></p>	<p><i>Numerator (N):</i> count of beneficiary episodes discharged alive (patient discharge status code not equal to 40 (expired at home), 41 (expired in a medical facility) or 42 (expired place unknown)), excluding beneficiary:</p> <ul style="list-style-type: none"> • transfers (patient discharge status code 50 or 51) • revocations (occurrence code 42) • discharged for cause (condition code H2) • who moved out of the service area (condition code 52) <p><i>Denominator (D):</i> count of all beneficiary episodes discharged (by death or alive) during the report period (obtained by considering all claims billed for a beneficiary by that hospice)</p>
<p><i>No General Inpatient Care or Continuous Home Care</i></p>	<p><i>N:</i> count of beneficiary episodes that had no amount of general inpatient care (revenue code = 0656) or continuous home care (revenue code = 0652)</p> <p><i>D:</i> count of all beneficiary episodes discharged (by death or alive) by the hospice during the report period (obtained by considering all claims billed for a beneficiary by that hospice)</p>

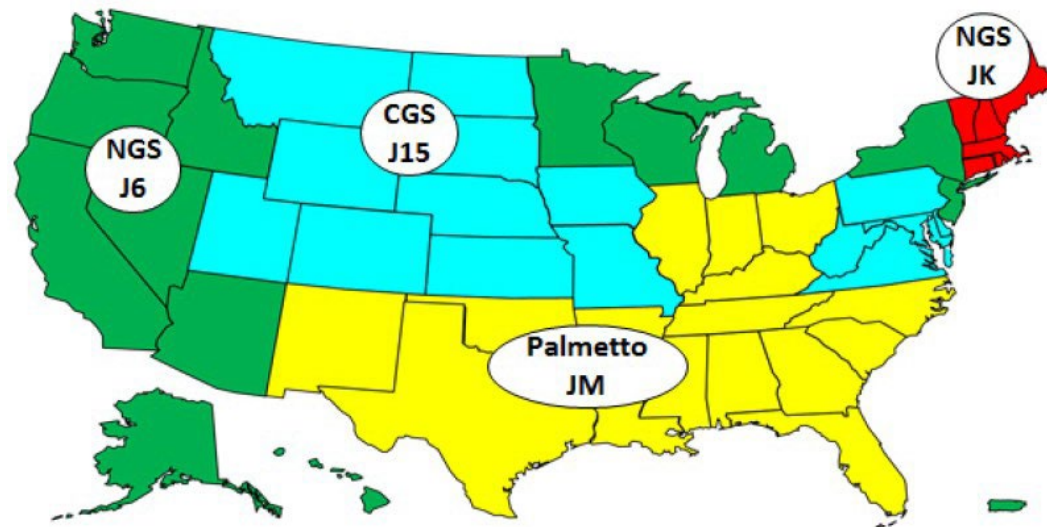

Percentiles in PEPPER

- The percentile tells us the percentage of hospices that have a lower target area percent.
- Target area percents at/above the national 80th percentile are identified as “outliers” in PEPPER.

Comparison Groups

- Nation
- Medicare Administrative Contractor (MAC) jurisdiction
- State

How does PEPPER apply to providers?

PEPPER is a roadmap to help providers identify potentially vulnerable or improper payments.

Providers are not required to use PEPPER or to take any action in response to their PEPPER statistics.

Why not take advantage of this free comparative report provided by CMS?

PEPPER Distribution

- PEPPER is distributed in an electronic format.
- Each release of PEPPER will be available for approximately two years from its original date of release.
- PEPPER cannot be sent via email.
- It is available via the PEPPER Portal:
 - Visit PEPPERFILE.CBRPEPPER.org.
 - Links to the portal can be found on the PEPPER homepage: PEPPER.CBRPEPPER.ORG.

Required Information to Access PEPPER via the PEPPER Portal

- Six-digit CMS Certification Number (also referred to as the provider number or Provider Transaction Access Number [PTAN]).
 - Not the same as the tax ID or National Provider Identifier (NPI) number.
 - The third digit of this number will be a “1.”

Required Information to Access PEPPER via the PEPPER Portal, cont'd

- A patient control number (found at form locator 03a on the UB-04 claim form) or a medical record number (found at form locator 03b on the UB-04 claim form) for a traditional Medicare Part A Fee-for-Service patient who received services from July 1, 2022, through Sept. 30, 2022.
- The contact from the Provider Enrollment, Chain, and Ownership System (PECOS) will be sent an email with a validation code. The validation code may be shared with others in the hospice, as deemed appropriate.
- The validation code is updated for each release.

Strategies to Consider

- Do not panic!
 - Outlier status does not necessarily mean that compliance issues exist.
- If you are an “outlier,” determine why that may be.
 - Do the statistics reflect your operation? Patient population? Referral sources? Health care environment?
Verify by:
 - Sampling claims and reviewing documentation in medical record.
 - Reviewing the claim; was it coded and billed appropriately, based upon documentation in the medical record?
- Ensure you are following best practices, even if you are not an outlier.

Aggregate Target Area Data

- National-level and state-level data are available at PEPPER.CBRPEPPER.org on the “Data” page.
 - Target areas
 - Top terminal diagnoses
 - Live discharges by type
- This data is updated annually following each report release.

Peer Groups

- Allows comparison of PEPPER statistics to providers' peers.
- For each of the target areas, the peer group bar charts identify the 20th, 50th, and 80th national percentile for hospices in three categories:
 - Size (i.e., number of episodes)
 - Location (i.e., urban or rural)
 - Ownership type (i.e., profit/physician-owned, nonprofit/church, or government)

Peer Group Bar Charts

- Charts will be updated annually.
- Refer to “Methodology” and “Hospices by Peer Group” files for additional details.
- Disagree with your ownership type or location?
 - Contact your CMS Regional Office Coordinator with any updates/corrections.

For Assistance with PEPPER

If you have questions or need individual assistance, click on “Help/Contact Us,” and submit your request through the Help Desk.

Complete the form, and a member of the PEPPER Team will respond promptly to assist you.

Please do **not** contact any other organization for assistance with PEPPER.

CARES Act

Please note: Policy guidance cited in published CBRs and PEPPERS are based on non-public health emergency Medicare rules. Please check with your Medicare Administrative Contractor to determine if a particular service or supply is impacted by the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act, published in March 2020, addresses Medicare flexibilities related to the COVID-19 crisis.
