Medicare Spending Per Beneficiary (MSPB) Report

- New supplemental report, added to Q4FY17 ST PEPPER release (March 2018)
- Hospital-level MSPB is calculated and reported annually by CMS to support the Hospital Value Based Purchasing Program
- Hospital-level statistics are available on the Hospital Compare website: https://www.medicare.gov/hospitalcompare/Data/spending-per-hospital-patient.html
MSPB Report, cont.

- Statistics are calculated by Econometrica
- This report is populated for hospitals that have more than 25 qualifying episodes in the calendar year. For more information on the MSPB, please visit the MSPB Methodology Page:
  
MSPB Report in the PEPPER

- TMF has reformatted the MSPB statistics for calendar year 2016 to help hospitals identify where their costs might be higher or lower than the national median hospital.
- Plan to update annually.
- Questions about the MSPB measure should be sent to Econometrica Inc. at: CMSmspbmeasure@econometricainc.com.
